

INTERSTATE ADOPTION FEES

Effective November 2022

Holt International provides services to adoptive parents who desire to adopt a child born in another state in compliance with the Interstate Compact on the Placement of Children (ICPC).

Application Fee | \$350

Due at the time you apply to Holt and non-refundable. Holt will carefully review your application and arrange a time to discuss next steps with you. Adoption consultant referral information is available.

Initial Home Study Fee | \$2,900

Due prior to starting the home study process. Holt will conduct required background checks on all household members, obtain references from the individuals you list on your application, and guide you through the process of collecting all necessary supporting documentation to complete a home study assessment for your family, including verification of parent training. Once most of your documentation has been submitted, Holt will review your file and assign your case to a social worker to conduct interviews. A social worker will schedule a home visit and interview all household members to gather information for the assessment. Once all the necessary information has been gathered, the social worker will write an extensive report including all required information regarding your family to meet state requirements.

Home Study Update Fee | \$750

Payment due to Holt prior to the first home study update appointment. Holt requires a yearly home study update for all families. An updated home study is also required if significant events occur prior to the placement of a child, such as a move, a job change, a change in household composition, etc. Should you choose to change programs within Holt after your original home study is completed, a home study update is also required.

Placement Coordination Fee | \$500

Payment due when matched with an expectant parent or a child born in another state. Holt will provide supporting documentation required by the Interstate Compact on the Placement of Children (ICPC) in order for you to travel between states after receiving placement of a child for adoption.

Post Placement Fee | \$500 per visit

Payment due at time of child placement with the adoptive family. The frequency of post-placement reports required varies depending on state and agency requirements. Holt requires a visit and report during the first 90 days after placement for all children, regardless of whether this is required by the state or placing agency. There is an additional fee of \$100 per report for post-placement reporting for families that adopt 2 or more children.
