ABOUT US

### Our Story

As I get older, I care less about what other people think and the traditional order of life. So, I'm ready to take on the role as a single woman. I have a strong support system to help me as I raise a happy child in a loving and accepting environment.

Family is so much more than genetics... adoption is a wonderful way to create a family built on love.

I don't know what the future holds, but I will always honor you in our home and cherish the gift you've given me.

Vanessa & Jamison

**hello,**

Considering placing your baby for adoption is an overwhelming act of love and courage. I will not pretend to understand how difficult this is for you and I want you to feel confident about your choice.

If you decide to take the adoption path and feel like I am the right fit to parent your baby, I will do everything in my power to give that child a wonderful life. I cannot wait to be a mother!

I have the resources, experience and support to create a stable, encouraging and loving home. There is a community of family and friends eager to be involved in the child's life - long bike rides with grandpa, dance parties with cousins, advice from an aunt and bear hugs from a family friend. All that's missing is the baby.

I don't know how to say thank you for taking the time to consider me as the adoptive parent for your future baby. You would be making a significant and lasting impact on my life.

Thank you,  
**Vanessa & Jamison**

Veganism is both the practice of abstaining from the use of animal products, particularly in diet, and an associated philosophy that rejects the commodity status of animals. A follower of either the diet or the philosophy is known as a vegan.

Distinctions are sometimes made between several categories of veganism. Dietary vegans refrain from ingesting animal products. This means avoiding not only meat but also egg and dairy products and other animal-derived foodstuffs. Some dietary vegans choose to wear clothing that includes animal products that example, leather or wool.

Environmental veganism refers to avoiding animal products on the premise that harvesting.

Vegan diets tend to be higher in dietary fiber, magnesium, folic acid, vitamin C, vitamin E, iron, and phytochemicals, and lower in dietary energy, saturated fat, cholesterol, long-chain omega-3 fatty acids, vitamin D, calcium, zinc, and vitamin B.

*why adoption?*

I HAVE WANTED TO BE A MOTHER MY WHOLE LIFE AND, FOR SOME REASON, I ALWAYS KNEW I WANTED TO ADOPT.

As I get older, I care less about what other people think and the traditional order of life. So, I'm ready to take on the role as a single woman. I have a strong support system to help me as I raise a happy child in a loving and accepting environment.

Family is so much more than genetics... adoption is a wonderful way to create a family built on love.
